

Patient Information

"From 1st April 2015, the NHS directed that all practices are required to allocate a named accountable GP to all patients.

All patients at this practice have been assigned a named GP, and you can find out who this is at your next interaction with the practice.

There will be no impact on the service you receive regarding the provision of appointments, your treatment, or which GP you can see.

The name of your allocated GP will not necessarily be the one you see most regularly.

Please be assured that you can still access all of our medical team in exactly the same way as before."

**Many thanks
Practice Manager**
